

## Video Outline

Title of Lesson: Night Drawings

Ages: 6-10

Video time: 6 min 2 sec

Video link: <https://youtu.be/H2-gyqWSOSc>

Intro to video:

This video will show you how to use different kinds of art materials to draw a night time scene! What kinds of night time things do you want to draw? We'll make a mixed media drawing together. You just need a piece of dark construction paper (black, blue, purple), and some chalk, colored pencils, markers, crayons, pencils, gel pens... whatever you have is good to experiment with!

Step 1: Chose what you'd like to draw in your night scene. Don't forget the moon and stars.

Some ideas: Stars, the moon, clouds, the ocean, the forest, mountains, stars, space ships, owls, cats, windows glowing in the night... if you need inspiration you can always look out your window at night! :)

Step 2: Draw using different art materials. You'll mix them together, this kind of art is called mixed media, because of that! Try out whatever you have. You could even use paint too if you have it... (51 sec)

Step 3: Just draw until you're done... whatever you like! (5 min 51 sec)
