

Video Outline

Title of Lesson: Color Wheels

Ages: 6-18

Video time: 7 min 6 sec

Video link: <https://youtu.be/nuwtNBCxCwA>

Intro to video:

In this video I show people how to mix colors with crayons, colored pencils and watercolor paint. First we'll talk about colors, and the color wheel. We'll go over primary, secondary, and tertiary colors... and we'll go over the color wheel. Then we'll practice mixing colors together to make color wheels using crayon, colored pencil, and watercolor paint. Have fun learning about colors! Color mixing is the best!!

Sections:

1. We'll start out talking about colors. Primary, secondary and tertiary colors... and we'll look at a color wheel. Color wheels help us organize colors and mix them too!
2. Mix colors and make a color wheel using crayon (1 min)
3. Mix colors and make a color wheel using colored pencil (3 min 13 sec)
4. Mix colors and make a color wheel using watercolor! More in depth color wheel including tertiary colors. (4 min 05 sec)
5. Review labeling your color wheel with color names (6 min 35 sec)
