

Video Outline

Title of Lesson: Found Object Sculptures

Ages: 6-10

Video time: 5 min 50 sec

Video link: <https://youtu.be/tb9RypK-fcE>

Intro to video:

A sculpture made from objects you find... these can be things you find anywhere! Try looking in your recycling bin... boxes work well, and paper towel tubes, foil, lids, straws... make sure they're clean. We'll work together to figure out things you can use and then plan your work out. Make a sculpture, any kind of thing will work!

Steps:

1. Find some recycling... what do you have in the recycling? Pick like 5 or 6 things... anything will work. (57 sec)
- 2: Draw a picture of what you'd like to make. You get to pick! Anything you like... an animal, a robot, something that moves or a building. Your options are wide open. (2 min 10 sec)
- 3: Start by thinking about how you'd make the thing you want. (2 min 35 sec)
- 4: Begin attaching a couple of things together using whatever you have on hand. Next attach some more things together... keep on working! (3 min 40 sec)
- 5: You'll know when you're done - work until you're happy with your sculpture. Did it end up like you thought? What can you do with it? (4 min 48 sec)
- 6: Have fun!!
