

Video Outline

Title of Lesson: House Book

Ages: 6-12

Video time: 6 min 14 sec

Video link: <https://www.youtube.com/watch?v=ECMZcwxJ7GM>

Intro to video: In this lesson I'll show how to make a piece of paper into a house shaped 'book'. This is a super fun and easy project celebrates home, and gives us time to draw the unique parts of our homes.

Make your house book look like your house however you can... you can use pencil, colored pencil, markers, crayons... whatever you have!

Sections:

1 Talk about this book style, and about houses. Lots of ideas about home and what you could include in your book.

2. Start folding your house book... use thick paper if you can. (1min 28 sec)

3. Draw your home! Let's come up with ideas about what to include in these books. (4min 05 sec)

Good questions to ask while you're working on this project:

What does your home look like? What color is your home, what color is your front door? Who lives there with you? What is your favorite part of your house?
