Ages: 6-12

Video time: 3 min 11 sec

Intro to video: This drawing game is a great way to explore lines and feelings at the same time! You'll draw different kinds of lines, based on prompts about feelings. Any feelings will work for this! I'm including prompts at the end of the video, if you want to play along here.

Sections:

1. First we'll talk about lines, and I'll describe the game. A great teacher taught me this one, it's super fun!
2. Next I'll show you how the game works. (52 sec)
3. There are some line idea prompts here so you can try it out, or do it from home along with the video! (2 min 15 sec)
